

**REMARKS**

In view of the above amendment, applicant believes the pending application is in condition for allowance.

Further to the Amendment filed by Applicant on January 20, 2006, Applicant has amended Fig. 7 and pages 14, 15 and the Abstract to change reference numeral 10, as referenced in these parts of the application, to 10' so as to avoid multiple use of reference numeral 10 for different elements.

Applicant wishes to thank Examiner Grey for holding an interview with the attorney of record on January 26, 2006 during which time the amendment to the claims was discussed relative to Figs. 1 and 2 of the application. The Examiner expressed her initial determination that the amendment to the claims would avoid further rejection under 35 U.S.C. § 112 and would place the application in condition for allowance. However, the Examiner confirmed that it would be necessary for her to confer with her supervisory for a final determination.

In view of the above, consideration and allowance are, therefore, respectfully solicited.

In the event the Examiner believes an interview might serve to advance the prosecution of this application in any way, the undersigned attorney is available at the telephone number noted below.
